

Ode to CFT

**While Rome burns and Dow drops,
Country's trade abysmally flops.
Since alleged free trade
Is a nasty charade,
We must have CFT as the props.**

**Paying trade deficits till it hurts,
We enhance the Chinese Air Force --
While, squeezing expense
From the home defense,
We deprive it of vital resource.**

**We need an international cop,
A sheriff to tell China to stop
Her currency games,
Her sea lane claims.
Then America would stay atop.**

(CFT stands for Compensated Free Trade)
