

HENRY A. KISSINGER

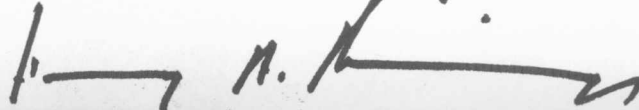

July 11, 2013

Dear Dr. Masch:

Thank you for your gracious letter, which I was interested to read. I am delighted and very gratified to know that the small assistance I was able to render some forty years ago helped bring you and your family to the U.S. and set you on the path to a distinguished scientific career in America. I, too, know how the power of a helping hand at a critical moment can change a lifetime.

I appreciated your writing me and wish you and your family continuing success.

Warm regards,

Henry A. Kissinger
